Here are some of the many amenities offered at Rainbow King Lodge:

As part of the price, you will be provided with all the necessary tackle for fly fishing and spin fishing, including rods, reels, flies, lures, leaders, split shot and the necessary gear for king salmon and halibut fishing, as well as wading boots.

You only need to bring waders, fleece or cold weather tights for under your waders and a Gore-Tex, hooded jacket. If you choose to bring your own fly rods, a 6 and 8 weight rod is recommended, with floating lines for both rods and a sinking tip for the 8 weight rod. A rod and reel case, similar to the BD Dunn style is highly suggested. Of course, polarized sunglasses are a must, along with sunscreen.

More detailed information on what to bring can be found at:

The lodge has an airplane fleet consisting of two 6-passenger deHavilland Beavers and one 10-passenger deHavilland Turbine Otter.

There are 14 spots available on a first-come, first-served basis. Most rooms are for two anglers, but a limited number of single rooms are available.

Whether you are a skilled fly, spin or novice fisherman, the experienced guides will accommodate your every need.

In fresh water, other than fresh salmon, all species are catch and release. When fishing in salt water, you can keep a variety of species based on the limits set by the Department of Fish & Game. The lodge will filet, freeze and pack up to 50 lbs. of fish in a travel box for your trip home.
